Workshop overview

Business analysis practitioner workshop covers the essential requirements elicitation techniques such as interviews, workshops, observations, document analysis etc. It also describes essential requirements modeling techniques such as requirements catalog, use case modeling, prototyping, matrix model etc. The course is completely aligned to BABOK version 2.0. This program also provides 21 PDU's (Contact hours) of training for CCBA certification.

The workshop covers the basic skill sets required by business analysis professionals based on the industry recognized standards and benchmark such as IIBA's BABOK version 2.0 and other industry best practices. The workshop provides exposure to business analysis concepts and is supplemented with detailed case study covering all the concepts learned during the workshop, which helps participants to apply the knowledge gained during the workshop. The workshop also includes mock tests and sample questions for the participants who are aspiring to take up certification exam. The workshop is the first milestone propelling budding professionals to get certified against industry certifications.

Workshop Benefits

- ✓ A structured learning environment enhances learning by a factor of 10.

Sample earlier course feedbacks

1. I would definitely recommend this training to others in Accenture!!
– Sukirti Sen, Accenture.

2. Thanks for conducted wonderful session and shared your excellent knowledge with us. I felt this session was knowledge enhancement for me. Hope it will increase my confidence and perform my roles well in my projects - Chandra Sekhar Challa (Value Labs).

3. Thanks for the class it was very interesting and informative. –
Sheeja Abraham, Azkonobel.

4. I am impressed and Appreciate work and efforts put by you, in making all participants take home the best with them. Would definitely recommend this workshop to any of my colleagues, Friends - Ashwin Baliga, BA, at Xora Inc.

5. Well I really should say that the choice I made was an excellent one. Not just about the trainer and the quality of the course. But the best in all fronts. I guess the difference that it made was also the quality of participants that were involved. It was really very knowledgeable and also would definitely recommend this. - Sai Ratnakar, business analysis CRM IT.
